

## GENERAL LABORER

The General Laborer is a key member of the Terra Water team and performs all the physical tasks. Work done in this position supports the timely completion of a project and the quality of the project. Work is held to a high standard consistent with Terra's values and adheres to all HSE and compliance regulations. A jack-of-all trades, the successful candidate can tackle challenges related to construction and maintenance, handle tools, and clean job sites.

The successful general laborer will be well-organized and detail-oriented. You should have good customer service skills, be able and willing to follow instructions, and be prepared to travel to different job sites. The ideal candidate for this work would be a jack-of-all trades with relevant experience.

Responsibilities include:

- Assist in the installation, maintenance, and repairs of equipment and structures.
- Measure, cut, shape, assemble and join materials made of wood, wood substitutes, lightweight steel, and other materials;
- Build foundations, columns, suspended slabs, erect wood walls, and construct roof systems.
- Skilled in the use and care of hand and small power tools associated with the work.
- Proficiency with hand and air tools.
- Assist with installation, set-up and tear out of remote camps and ancillary equipment.
- Proven experience with sawing, measuring and sketching.
- Troubleshoot and carry out equipment maintenance requirements as needed.
- Work with Terra's operation staff on-site and identify/contribute to Terra's Continuous Improvement initiatives.
- Improve skill set and knowledge by taking part in industry and Terra sponsored training programs.
- Focus on safety practices and policies while completing all tasks.
- Build ancillary equipment as needed (pipe, hoses, lift stations).
- Various other duties as required.
- Locating and identifying leaks.
- Repairing or replacing pipes and parts.
- Determining the right tools and equipment necessary to successfully complete a job.
- Assisting with preparing cost estimates for clients.
- Helping the Plumber to ensure that all work is in accordance with local plumbing codes.
- Cleaning the job site after the work is completed.
- Following the Project Manager/Plumbers' instructions.
