

WATER AND WASTE WATER TREATMENT OPERATOR LEVEL 3

This position is responsible for field operation of water and wastewater treatment equipment for Terra Water Systems Inc. The Operator will be deployed to a remote work site to maintain, inspect and operate Terra supplied equipment, while staying in close contact with the client and the operations staff. The position would require 2 weeks in camp and 2 weeks off schedule.

Responsibilities include:

- Working with on-site Terra contracted labor to assist in equipment installation or removal.
- Troubleshoot and carry out equipment maintenance requirements on a periodic basis.
- Work with Terra operations staff on site and identify/contribute to Terra's Continuous Improvement initiatives.
- Improve skill set and knowledge by taking industry and Terra-sponsored training programs.
- Focus on safety practices and policies while undertaking day-to-day tasks associated with the job or work site tasks.
- Building ancillary equipment as needed (pipe, hoses, lift stations, cords); and various other duties as required.
- Experience in MBR wastewater treatment systems is considered an asset.
- Repair PVC, ABS, and metal plumbing.
- Handling water and wastewater treatment chemicals.
- Interpret lab results to identify inefficiencies in the operation and correct as necessary.
- Inspecting ancillary equipment (lift stations, hoses, heat trace, etc.) at least once every 12 hours.

Accountability and decision-making skills:

- Demonstrated experience in responsible financial, budgetary and cost decision-making.
- Issue Terra- approved purchase orders (POs) to field contractors as required for on-site services.

Education and experience:

- 3-5 years in the remote work camp equipment operations or maintenance.
- Approved Level 3 Wastewater treatment operator Certification and Level 3 or higher Water Treatment Operator Certification

Other skills and competencies:

- Valid Driver's License and Safety Tickets. Current 3-year driver's abstract is required.
- Must be reliable and punctual.
- Good communications skills, both written and verbal.
- Organized and the ability to multi-task.
- Ability to meet job requirements with little daily supervision.
- Ability to organize and maintain accurate equipment files.
- Interest in keeping current with government regulations and industry requirements.
- Excellent attitude toward workplace safety.
- Computer knowledge, skills in Word, Excel, Outlook.
- Good Mechanical Aptitude.
