

GASFITTER

We are looking for skilled ticketed trades people to join our fast-paced and dynamic team. If you are a great teammate with excellent interpersonal skills, then this is the role for you. Reporting to the Field Construction Manager, the Gas Fitter is responsible for ensuring safe and efficient operation as this role supports in the design, installation, troubleshooting, maintenance, and repair of pipe systems, appliances, equipment, and accessories in various sectors of the mine.

This is an exciting opportunity to apply your knowledge in working with appliances and equipment that exceeds 400,000 BTU, including boilers, burners, makeup air units, furnaces, process burners, and various other gas-fired equipment!

Responsibilities include:

- Be a courageous safety leader, adhere to and sponsor safety and environmental rules and procedures
- Install, troubleshoot, and maintain process piping and all HVAC units
- Perform regular preventive maintenance, diagnose and complete repairs on all HVAC units
- Maintain, create and record work order records
- Troubleshoot all system problems including disassemble and reassemble of system components
- Breakdown and repair natural gas burner systems

Education and experience:

- Interprovincial Red Seal A Gas Fitter, certified in the province of Alberta or British Columbia or willing to obtain prior to employment
- Valid Red Seal Journeyman in HVAC Mechanics, Plumbing, Pipe Fitting or related trade with experience in a heavy industry setting

Skills and competencies:

- Must be reliable and punctual
- Good communication skills, both written and verbal
- Organized and the ability to multi-task
- Ability to meet job requirements with little daily supervision
- Ability to organize and maintain accurate equipment files
- Excellent attitude toward workplace safety
- Computer knowledge & skills in Word, Excel, Outlook
- Good Mechanical Aptitude
- Must be a positive team player with strong work ethic and able to work well with both clients and co-workers
- Able to lift, move and carry up to 50 Lbs
- Ability to read and interpret blueprints, drawings, and project specifications
- Thorough knowledge of relevant industry codes
- Experience in a mining environment is an asset
